

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Bin Yuan Greater China Fund (the "Sub-Fund") is a sub-fund of Hereford Funds (the "Fund")

Class DI A USD (the "Class") - ISIN: LU2200556392

The Fund has appointed FundPartner Solutions (Europe) S.A. as management company.

Objectives and investment policy

The investment objective of the Sub-Fund is to provide long term capital growth, measured in USD, primarily through investment in equities and equity-linked securities of "Greater China Companies".

The Sub-Fund is actively managed. The benchmark index of the Sub-Fund is MSCI China All Shares Net Total Return Index. It is used for the calculation of the performance fee and for performance comparison purposes. The Investment Manager is not in any way constrained by the benchmark index in its portfolio positioning. This means the Investment Manager is taking investment decisions without reference to a benchmark index. The Sub-Fund can deviate significantly from the index.

Greater China Companies are companies having their registered office in Greater China and companies organised and located in countries other than in Greater China where a predominant part of their economic activity, alone or on a consolidated basis, is derived from either goods produced, sales made or services performed in countries such as the People's Republic of China, Hong Kong, Taiwan and Singapore.

Investment exposure will be achieved through equities and equity-linked securities (such as ADRs and GDRs). This also includes investment in China A-Shares through the RQFII schemes and the Shanghai and Shenzhen - Hong Kong Stock Connects.

The Sub-Fund may also invest in investment grade debt securities and convertible bonds, equities and equity related securities of companies outside Greater China and money market instruments.

The Sub-Fund will not invest in companies which are included in the list of exclusion of the Norges Bank.

For the avoidance of doubt, the Sub-Fund will not invest more than 10% of its net assets in other undertakings for collective investment.

In exceptional market circumstances and on a temporary basis, the Sub-Fund may hold up to 100% of its net assets in liquid assets and debt instruments (including money market instruments).

The Sub-Fund promotes certain environmental and social characteristics within the meaning of article 8 of SFDR but does not have a sustainable investment objective. The Sub-Fund will invest in socially and environmentally aware companies that create long term corporate value by providing the best products and services to society. Companies with poor governance and companies producing coal fired power, tobacco, as well as any company from the gambling sector will be excluded. ESG is deeply integrated in the Investment Manager's risk management framework and investment process. Poor ESG is the key factor in business risk, so at the screening stage, the investment strategy will eliminate companies that are not ESG compliant and qualified.

Dealing Frequency

Risk and reward profile

Risk Disclaimer

- This current risk profile is based on historical data and may not be a reliable indication of the future risk profile of the Sub-Fund.
- The risk category shown is not guaranteed and may shift over time.
- The lowest category, which corresponds to Number 1, cannot be regarded as being risk-free.
- The Sub-Fund does not provide any capital guarantee or asset protection measures.

Why is this Sub-Fund in this category?

The investment objective of the Sub-Fund is to generate long-term capital growth and income by investing in equities and equity-linked securities of Greater China Companies. Hence, the risk/reward profile of the Sub-Fund should correspond to a high risk category on the risk/reward scale.

Are there any other particular Risks?

Risks that could affect fund performance and are not necessarily fully reflected in the risk and reward rating include:

- **Liquidity risks:** The Sub-Fund may invest part of its assets in less liquid securities. Those are securities that cannot easily be sold or exchanged for cash without a substantial loss in value in certain market conditions. Those securities also cannot be sold quickly because of a lack of ready and willing investors or speculators to purchase the asset.
- **Stock Connect Market Risk:** Chinese "Stock Connect" trading programs may be subject to additional risks related to the enforcement of ownership rights, clearing rules, settlement, trading quotas and operational issues.

- **Counterparty risks:** The Sub-Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Sub-Fund.

- **Credit risks:** The Sub-Fund may invest in debt securities. The issuers of these debt securities may become insolvent, which will mean that the securities will lose all or some of their value.

- **Risks from the use of derivatives:** The Sub-Fund may use financial derivatives instruments which may result in the Sub-Fund being leveraged and may result in material fluctuations in the value of the Sub-Fund. Leverage on certain types of transactions including derivatives may impair the Sub-Fund's liquidity, cause it to liquidate positions at unfavourable times or otherwise cause the Sub-Fund not to achieve its intended objective.

Leverage occurs when the economic exposure created by the use of derivatives is greater than the amount invested resulting in the Sub-Fund being exposed to a greater loss than the initial investment.

- **Operational risks:** The Sub-Fund may fall victim to fraud or criminal acts. It may suffer losses as a result of misunderstandings or mistakes by employees of the management company or by external third parties or may be damaged by external events, such as natural disasters.

- **Sustainability risk:** This risk is any environmental social or governance event or condition that could impact the value of investments. The Investment Manager primarily relies on its ESG analysis and climate risk indicators to categorise the potential level of Sustainability risks in each fund. The level of sustainability risk may fluctuate depending on which investment opportunities the Investment Manager identifies. This means that the fund is exposed to Sustainability Risk which may impact the value of investments over the long term.

Charges

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	0.75%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	none
-----------------	------

The charges you pay are used to pay the cost of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

These percentages are maximum figures which might be charged by intermediaries, in some cases you might pay less. The actual entry and exit charges can be found out from adviser or distributor.

The percentage of ongoing charges is based on the last year's expenses, ending 31/12/2021. This figure may vary from year to year. It excludes:

- Performance fees (if applicable)
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Sub-Fund when buying or selling units in another collective investment undertaking.

For more information about charges, please refer to the Fund's prospectus, section detailing the expenses, which is available online at www.fundsquare.net or at the Fund's registered office.

Past performance

Please be aware that past performance is not a reliable indicator of future results.

The past performance presented includes the fees except the entry and exit charges which are excluded from the calculation of past performance.

The Class has been launched on 25/09/2020.

Past Performance of the Class has been calculated in USD.
