What is this product?

TYPE OF PRODUCT

The product is a sub-fund of Hereford Funds, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However, the board of directors may decide to close this product under certain circumstances.

OBJECTIVES

Objectives and investment policy

The investment objective of the Sub-Fund is to provide long term capital growth, measured in USD, primarily through investment in equities and equity-linked securities of Indian companies or companies deriving a significant portion of their business from India.

Investment exposure will be achieved through equities and equity-linked securities (such as listed shares, ADRs (American Depositary Receipt) and GDRs (Global Depositary Receipt)). Investors should refer to the "Risk Warning" section for special risk considerations applicable to the Sub-Fund.

The primary objective of the strategy adopted by the Sub-Fund is to run a concentrated portfolio, consisting of the team's high conviction investment ideas. The strategy will be market cap agnostic and there will not be any restriction on the sectors in which it can invest.

The investment philosophy is centred around buying growing businesses, with above average return on capital economics, backed by managements with a track record of good governance and valued at a reasonable risk/reward ratio.

For the avoidance of doubt, the Sub-Fund will not invest more than 10% of its net asset in UCITS and other UCIs.

The Sub-Fund may use futures and options on securities, indices and interest rates for different purposes (i.e. hedging and efficient portfolio management).

Benchmark The Sub-Fund shall be actively managed. The Sub-Fund shall use MSCI India Investable Market Index (IMI) as its benchmark purely for comparison purposes. The Investment Manager is not in any way constrained by the benchmark index in its portfolio positioning. This implies that the Investment Manager is taking investment decisions without reference to the benchmark index and the Sub-Fund can deviate significantly from the index.

ESG information The Investment Manager will integrate sustainability and ESG (Environmental, Social, Governance) risks in its investment decision making process (the "ESG Integration"). The material ESG risk factors are analysed alongside traditional financial factors and are considered in forming investment decisions. This approach would be sector specific and would incorporate only the most material ESG risk factors into the ESG assessment of a sector / company. The Sub-Fund does not promote environmental or social characteristics within the meaning of SFDR (article 8) nor is it classified as pursuing a sustainable investment objective (article 9). The investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Dividend Policy This Class is cumulative. Dividend distributions are not planned.

Share Class Currency The currency of the Class is USD.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The return of the product is determined using the Net Asset Value (the "NAV") calculated by FundPartner Solutions (Europe) S.A. (the "Administrative Agent"). This return depends mainly on the market value fluctuations of the underlying investments.

INTENDED RETAIL INVESTORS

The product is reserved for institutional investors. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 5 years.

OTHER INFORMATION

Depositary Bank Pictet & Cie (Europe) AG, succursale de Luxembourg (the "Depositary").

Asset segregation The assets and liabilities of each sub-fund are segregated by law, which means that the performance of the assets in other sub-funds does not influence the performance of your investment.

Dealing Each day that is a bank business day in Luxembourg and India and on which the Indian Stock Exchanges are open for trading. 24th December is not a Valuation Day.

Switching Shareholders may apply for any shares of any sub-funds to be converted into shares of another sub-fund, provided that the conditions for accessing the target class or sub-fund are fulfilled with respect to this sub-fund, on the basis of their respective NAV calculated on the Valuation Day following receipt of the conversion request. The redemption and subscription costs connected with the conversion may be charged to the shareholder as indicated in the prospectus. For more details about how to switch between sub-funds, please refer to the prospectus.

Additional Information More detailed information on the Fund, such as the prospectus, other classes, the key information, the latest NAV, the articles of incorporation as well as the latest annual and semi-annual report, can be obtained free of charge, in English, from the Administrative Agent, the distributors, the Management Company or online at www.fundsquare.net.

This key information document describes the Class of one sub-fund of the Fund. For more information about other sub-funds, please refer to the prospectus and periodic reports that are prepared for the entire Fund.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period (RHP): Example investment		5 years USD 10,000		
		If you exit after 1 year	If you exit after 5 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs Average return each year	USD 7,080 -29.2%	USD 1,290 -33.6%	
Unfavourable scenario	What you might get back after costs Average return each year	USD 7,110 -28.9%	USD 10,370 0.7%	This type of scenario occurred for an investment in the proxy between March 2015 and March 2020.
Moderate scenario	What you might get back after costs Average return each year	USD 11,150 11.5%	USD 18,380 12.9%	This type of scenario occurred for an investment in the proxy then the product between November 2017 and November 2022.
Favourable scenario	What you might get back after costs Average return each year	USD 18,080 80.8%	USD 26,410 21.4%	This type of scenario occurred for an investment in the proxy between December 2016 and December 2021.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

The Management Company is not making any payment to you in relation to the Sub-Fund and you would still be paid in case of a default from the Management Company.

The Sub-Fund's assets are held with a separate company, the Depository, so the Sub-Fund's ability to pay out would not be affected by the insolvency of the Management Company. However, in the event of the Depository's insolvency, or its delegates, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depository is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depository will also be liable to the Sub-Fund or its investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations).

If the Sub-Fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment.

There is no compensation or guarantee scheme protecting you from a default of the Depository.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10,000 is invested

Investment of USD 10,000	If you exit after 1 year	If you exit after 5 years
Total costs	USD 159	USD 1,333
Annual cost impact (*)	1.6%	1.6%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 14.5% before costs and 12.9% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee for this Class.	USD 0
Exit costs	We do not charge an exit fee for this Class.	USD 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.79% of the value of your investment per year. This is an estimate based on actual costs over the last year.	USD 79
Transaction costs	0.80% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	USD 80
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	USD 0

How long should I hold it and can I take my money out early?

Recommended holding period (RHP): 5 years.

The RHP was chosen to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

Each day that is a bank business day in Luxembourg and India and on which the Indian Stock Exchanges are open for trading. 24th December is not a Valuation Day.

How can I complain?

In the event a natural or legal person wishes to file a complaint with the Fund in order to recognize a right or to redress a harm, the complainant should address a written request that contains description of the issue and the details at the origin of the complaint, either by email or by post, in an official language of their home country to the following address:
